2006-2009 -Vice Chairperson Retail Operations Executive Committee

2009-Current date – Secretary – Retail Operations Executive Committee

2008-2010 – PEC member for Retail Operations.

Any particular knowledge/experience which you feel may be useful for the position of PEC member:

As you will see above I have held many roles within the union from branch representative to a member of a Divisional Executive Council and the Principal Executive Council. This has given me a huge amount of experience in all aspects of union life.

I have continued with my trade union education completing my TUC union reps accredited course. I also sat the TUC Organising Academy assessments which I passed. The skills I have learnt I strive to use in my union roles and share with my trade union colleagues.

I was fortunate enough to attend the last two Women's TUC events and the last two Trade Union Congress conferences. I have been privileged enough to put motions forward on Accords behalf at these events.

I have been able to debate a number of issues during my time on the PEC and have been able to put member's views to the Company to get the best result possible.

Election Statement

Serving Accord members on the PEC for the last term has been a fantastic challenge given the changing industrial relations climate. I have continued to represent colleagues locally, regionally and divisionally.

I played a large part in reshaping Accords structure in order to ensure all Accord members are represented equally and effectively. Only then can your voices be truly heard.

Attending high level meetings with the company and Accords negotiating team has enabled me to put members views to the company on your behalf, in turn helping to influence decision that are made.

I aim to continue to shape Accords strategy in order to preserve fair reward, dignity at work and job security for all Accord members. Achieving this means, boosting recruitment and increasing engagement with both Accord members and LBG.

The energy and enthusiasm to make a difference to Accord members remains as strong as ever. I strive to ensure that everyone has a voice.

Re-elect me as your PEC representative, ensuring I have the opportunity to continue representing you.
