## Election Statement

Please vote for me, Stephen Brown, and you will have a PEC Representative who understands all aspects of Direct Channels Servicing and can represent your views at a National level.

As a Union Rep, I have contributed vastly to the vision of our union and the goals of our members at a local level. I consistently strive for the best outcome for all involved and have always followed the motto of ACCORD by ‘Putting Members First’.

The experience gained in a wide range of union activity, ranging from representing members at meetings to dealing with complex change within the business, allows me to articulate the needs of members within Direct Channels and in particular, the Servicing world.

By electing me to the PEC you will have a representative willing and able to challenge, debate and represent on your behalf.

We are coming through a significant period of change and the time is right to help Lloyds Banking Group see what we stand for as a Union. I undertake to make sure that every member in Direct Channels has a significant voice on the PEC.
